

## Specification of PPD-1818C

Appellation	Unit	Index value	Method
Outlook	---	Nature or light green glutinous liquid	---
Color	---	Light green color	---
Smell	°C	Aromatic odor	---
Onset of boiling	°C	180~240°C	---
Flash point (closed)	°C	32.5°C	---
Melting point	°C	≤ 6.0°C	---
Solidification temperature	°C	≤ 20°C	---
Open aromatic hydrocarbon (Boiling range)	°C	180 ~ 240	---
Heavy aromatic hydrocarbon (Boiling range)	50 °C	159 ~ 180	---
Pour Point	---	≤40°C	---
Density(20°C)	---	800~950 kg/m <sup>3</sup>	---
Solubility in water		insoluble	---
Solubility in other solvent		soluble in non-polar solvent	---
Viscosity (50°C)		800 mm <sup>2</sup> /s	---
Operation method	---	The effect of this product not only depends on the performance of itself but also closely relates with the crude oil property. Please test in the lab with small quantity and determine the proper product no. and optimum dosage before large-scale usage.
